## HIGHWAYMEN OF COALPORT ARE CONVICTED

Other Cases of Minor Interest Disposed in Criminal Court Yesterday and Today

## MOSTLY ASSAULT AND BATTERY

In criminal court yesterday afternoon the jury returned a verdict of not guilty in the case of Thomas Logan, charged with robbing the Pennsylvania passenger station at McGees Mills on November 29th last.

The case of Com. vs. Joseph Kaschick and Stanley Burber in which the defendants were charged by Frank Chippoloni with highway robbery, was taken up yesterday afternoon following the Logan case. The alleged crime was committed November 25, 1916, on the road leading from Coalport to Rosebud.

Chippoloni swore the men met him on the road and knocked him unconscious with a beer bottle and while in that condition he was robbed of \$50. The jury retired at 9:30 and brought in a verdict of guilty at 11:30 today.

A scrap at a Polish christening at Eriton, near DuBois, was responsible for the case of Com. vs. Anthony Zarinski. Anthony is charged by Joe Bolovitch with assault and battery, due to a beating which Joe alleges Andy gave him with a home made black jack. The affray occurred November 25th last, and the prosecutor alleged he was laid up for several days as a result of the beating he received.

When the case was called it was found that a number of the witnesses were unable to speak English and the court room was secured to find some one able to act as interpreter. Finally Barney Salve offered himself and his appearance and name denoting that he would likely prove to be the proper lubricant for the occasion, Judge Bell ordered him sworn in the case, and Salve was soon greasing the ways for the much tangled tale to get to the jury.

Earl Goodyear entered a plea of guilty to a charge of assault and battery and was sentenced to pay a fine of \$25 and costs.

Mildred W. Smith, of Rosebud, Pa., was divorced from Daniel C. Smith yesterday on the recommendation of Commissioner W. A. Hagerty who heard the testimony.

Clearfield Lodge of Owls took an appeal from a judgment entered by Justice Chorpene against the organization and in favor of Thomas Parks, a member, in the sum of \$25.

It appears from the statement filed that the \$25 is the balance due Parks on a claim for twelve weeks benefits, dating from July 20, 1916. Parks in his suit alleged that he became beneficial under the laws of the order on that date and was incapacitated for a

## WAS NOT BLACK DIPHThERIA AS REPORTED

Fortunate That Rumor of Dread Disease Near Borough Limits is Unfounded

## SICK CHILDREN ARE IMPROVING

The Progress is pleased to be able to state that there is no truth in yesterday's generally circulated report to the effect that black diphtheria had broken out in the family of Mr. and Mrs. Oakes Bowman in the Wrigley Addition, immediately adjoining the Fourth ward.

The facts are that the Bowman children were victims of an attack of diphtheria, but it is the ordinary kind. One child, an 8 year old girl died of the disease yesterday morning and four others are down with it and there are three other children and the parents in the family.

The little girl who was buried yesterday had been attacked by the disease several days ago but a doctor was not called in until the day before she died.

The family was destitute and an order of relief was taken out and the cases turned over to Dr. Cowdick yesterday. He at once administered antitoxin to the four children suffering with the disease and as a result their throats were pretty well cleared up this morning. The other children were also given antitoxin as a preventive measure and Dr. Cowdick informed us just after dinner that he sees no reason why all the children will not speedily regain their normal health.

## First American Vessel To Be Sunk May Cause War

The sinking of the American steamer Housatonic off the Solly Islands, Saturday, Feb. 3, is the first overt act against the United States committed since the German declaration of the new ruthless submarine warfare. This quotation from the President's address to congress, delivered shortly after the vessel was sunk, bears on the case: "If this inveterate confidence on my part in the sobriety and prudent foresight of their purpose should unhappily prove unfounded, if American ships and American should in fact be sacrificed by their naval commanders in headless contravention of the just and reasonable understandings of international law and the obvious dictates of humanity, I shall take the liberty of coming again before the congress to ask that authority be given me to use any means that may be necessary for the protection of our seamen and our people in the prosecution of their peaceful and legitimate errands on the high seas. I can do nothing less."

In a statement made by Boies Penrose in Pittsburgh several weeks ago he publicly declared that if President Wilson would again appear before the senate in person that he, Penrose, would drive him from the floor. Phillips in his resolution which he introduced today declares that Penrose did not make good last Saturday and that Pennsylvania has since backed up Wilson. The resolution was held up for printing.

## "SENATOR WORK OBJECTS"

Washington, Feb. 7.—Declaring the United States "has not been neutral" and that Great Britain has violated United States rights on the sea and that the United States put up with the violations as if she were an ally of Great Britain and that we should go to war with Germany for a greater reason, U. S. Senator John D. Works, California Republican today voiced the first objection heard in congress against President Wilson's action in severing relations with Germany. The address from Works came as a bolt of lightning from a clear sky. The senate adopted with protest Senator Stone's resolution endorsing the President's action toward Germany.

Count Tisza of Hungary, according to dispatches today strongly defends Germany in the course she has taken. The Hungarian parliament declares that Germany is fully justified in her submarine policy because of the English mine blockade.

Count Apponyi expresses the hope that the submarine warfare will force peace. County Carolvi alone disapproves of the submarine order and declares it to be a hindrance to world peace.

At the opening of the British parliament today King George declared that "no possible basis of peace was contained in the recent German offer. We must have reparation for the past and guarantee for the future." King George and Queen Mary attended the opening and the King addressed the upper house in person.

Several merchantmen have been sunk in the last 24 hours according to the admiralty. Two members of the crew of the Saxon Briton were lost when the vessel was sunk. The captain and 14 of the crew of the vessel Azul were safely landed. The Azul was sunk yesterday and the Saxon Briton rescued its crew. Other vessels sunk were the Vestra and the Crown Point.

Dispatches today from Consul Frost to Ambassador Page and the American state department gave no intimation that the Eavestone was legally sunk. After the men had put to sea they were offered no assistance by the submarine dispatches from Frost said.

## JOY RIDERS HAD A HOT TIME

Fred B. Leavy gave his friends Jim Cross and G. N. Ellenberger a delightful sleigh ride at noon today. Having read so much concerning the taking over by the government of private enterprises, transportation lines, etc., Leavy decided to commandeer or impress into the passenger service a way-backed old nag and a primitive sled which the owner had left standing in front of Leitinger's store. They dashed up Market and down Second street at a four-mile gait. The pace was too fast for Ellenberger and when the turn was made into mine street he lost his seat on the sled and went sky rocketing head first into the snow.

The caravan was promptly halted and the lost passenger recovered and taken home for arnica and repairs.

During the joy ride the owner of the outfit, who lived down near the knobs, came out of the store and finding his rig had disappeared immediately hunted up Chief McHenry and told him his horse had been stolen. While he was telling his troubles to the police, Leavy and Cross came driving down street as big as life and twice as homely, and the old man made a dash for Detsy and the sled and when the "hoss thieves" attempted to explain he thought they were poking fun at his outfit and "stacking his linen" offered to clean up the street with either or both the culprits.

When Cross told him his pan-in-law was "Squire he listened to reason and hostilities were averted, but it was a trying time for a minute or two as furnished much fun for the onlookers.

## King Opens Parliament Today The Place Searched For Plotters

Ancient Custom of Searching For Imitators of Guy Fawkes is Rigidly Followed

London, Feb. 7.—(By United Press)—The Star Spangled Banner was played by the band outside of the parliament building while the crowd awaited to greet the King and Queen today. Later in the House of Lords American Ambassador Page was given a conspicuous place among the diplomats near the King and Queen as the King delivered his speech convoking parliament.

just as they have done regularly for more than 300 years on the opening day of each new session, a squad of grey bearded veterans, clad in their picturesque Elizabethan uniforms of scarlet and gold, and armed with ancient halberds and lances, began solemnly nosing around through the communicating trenches and dugouts beneath the legislative chambers.

The Gentlemen Usher of the Black Rod was dispatched to summon in the "faithful Commons." Of the latter, only about sixty were able to squeeze in and crowd around the bar of the house.

A conspicuous figure in black robes, gold chain and full bottomed wig, the new Lord Chancellor the advanced to the steps of the thrones and kneeling presented to his Majesty the parchment roll wherein a speech carefully prepared for him by Lloyd George and his fellow cabinetiers, but by pleasing fiction known as the King's speech, was inscribed. King George read the address in clear, firm tones.

## ON THE SCREEN

SIR HERBERT TREE AS AN AMERICAN FARMER

English Actor-Knight Appears in Drama of Domestic Life in Tri- angle Feature, "The Old Folks at Home."

At the Opera House Tomorrow John Coburn and wife have become comfortably old and grey in their simple farm life. Reward comes to the old farmer in the form of a state senatorship. This, in the end means the breaking up of the old home.

The farmer's son, Steve, goes to the city, leaving behind his country sweetheart, Marjorie. Steve, how- ever, falls into the hands of an adven- tress, Lucia Medina, who plays with the affection of the country boy. The woman's companion, at first tolerant that Lucia receive the attentions— and money—of Steve, grows jealous.

In a mad rage, he strikes the woman, and Steve, who has quietly entered the apartment, shoots and kills the man in defense, as he be- lieves, of Lucia. The boy manages to escape to his own rooms, where he comes face to face with his father and mother, who have come to visit him. They help him to escape, and he suc- ceeds in reaching the old farm. There however, he is arrested and brought back to the city for trial.

The trial is going seriously against the lad when the aged mother unex- pectedly makes a passionate appeal to the jurymen. Touched by her tears, the jury bring in a verdict of "Not Guilty!" So the old farmer and his wife take their son back to the old farm. There Steve finds his little country sweetheart awaiting him.

### DR. COBURN'S ADDRESS

At the Baptist church last night Dr. Coburn spoke on "Repentance." He made it clear from the Bible that the word Jesus used had only one meaning and that in the mind of Jesus repentance meant to accept the thought and way of God instead of the way and thought of man and that these ways and thoughts were en- tirely and radically different. Only by accepting God's thought and doing God's will can any man have hope of heaven and the command is universal to all men in every age and place. Tonight Dr. Coburn will speak on "God's thought concerning God and the Devil vs. the thought of man." At 3 o'clock tomorrow the subject will be "The Gospel of Jesus and why are there four records?"

With frozen pipes, pumps, etc., the plumbers are kept quite busy even the "coal is frozen up". The thermometer dropped to 12 below in this section Monday night and yet some folks like winter.

### GARLIC

A friend of ours named Schultz asks us what we think of garlic. Truth is, Harry we don't think of garlic if we can help it.

Onions are bad enough, heaven knows. And garlic is demoralized onion.

Garlic originated with the pirates who sailed the Spanish Main. Knives, daggers, blunderbusses, garlis and other deadly weapons were common to them.

Garlic in the rough looks like a tulip bulb and smells like an Italian picnic. It is strung up in bunches in front of grocery stores. People who eat it ought to be too.

A little garlic goes a long way especially in a crowded street car.

### MARSHALL FIELD'S SON AND ARTIST GIBSON'S NIECE TO WED TODAY

New York, Feb. 7.—Cupid did it again today. Miss Nancy Keene Perkins of Richmond Virginia, niece of Mr. and Mrs. Charles Dana Gibson, and Henry Marshall Field, son of the late Marshall Field were married at the Gibson home in East 127th street. Chiswell D. Langhorne of Mirador, Ga., is the new Mrs. Field's grandfather.

### RUSSIA TO RECALL MUNITION AGENTS HERE AND SEND THEM TO THE TRENCHES

New York, Feb. 7.—Weary, it is said of paying high salaries and getting low efficiency from his staff, of 300 munition buyers with headquarters in New York, Czar Nicholas is expected to order most of them home within the next few days and put them in the trenches at the front. The Russian government was extremely displeased with the loss of millions of dollars in the Black Tom explosion and Kingsland explosions.

## BEGIN HOT WATER DRINKING IF YOU DON'T FEEL RIGHT

Says glass of hot water with phosphate before breakfast washes out poisons.

If you wake with a bad taste, bad breath and tongue is coated; if your head is dull or aching; if what you eat sours and forms gas and acid in stomach, or you are bilious, constipated, nervous, sallow and can't get feeling just right, begin inside bathing. Drink before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it. This will flush the poisons and toxins from the stomach, liver, kidneys and bowels and cleanse, sweeten and purify the entire alimentary tract. Do your inside bathing immediately upon arising in the morning to wash out of the system all the previous day's poisonous waste gases and sour bile before putting more food into the stomach.

To feel like young folks feel; like you felt before your blood, nerves and muscles became loaded with body impurities, get from your pharmacist a quarter pound of limestone phosphate which is inexpensive and almost tasteless, except for a sourish twinge which is not unpleasant.

Just as soap and hot water act on the skin, cleansing, sweetening and freshening, so hot water and limestone phosphate act on the stomach, liver, kidneys and bowels. Men and women who are usually constipated, bilious, headachy or have any stomach disorder should begin this inside bathing before breakfast. They are assured they will become rear cranks on the subject shortly.

### BETTER POSTAL FACILITIES WOULD BOOM U. S. TRADE IN SOUTH AMERICA

Buenos Aires, Jan. 18.—Better postal facilities between the United States and South America are declared by North American business men here to be one of the most urgent necessities today for the development of trade on the southern continent.

Mail order houses are pointed to as one class of concerns which might open a big field if the postal difficulty can be overcome. There is now no means for exchanging small amounts of money cheaply.

### CEMENT SHOW IN CHICAGO

Chicago, Ill., Feb. 7.—The fifty-seven or more varieties of the practical utilization of cement and its products were placed on public view in Coliseum today at the opening of the tenth annual National Cement Show. The show is by far the largest and most comprehensive of its kind ever held in this country. Everything from "poured" houses to cement furniture are included in the display. The exhibition will continue through the coming week. A luncheon there will be a series of meetings and conferences representing the various branches of the industry.

## "Give Me Men As Sleep O'Nights"

—Julius Caesar.

One of the most admirable of modern recipes for good, healthy night-sleep is the abstaining from coffee (and tea) at the evening meal.

A better recipe, for health and comfort at all times is total abstinence.

## POSTUM

"There's a Reason"

The world's champion Red Sox were pleased to learn that "Rube" Marquard had signed with the Brooklyn Robins for the coming season.

Having disposed of their surplus talent and with few of their regulars signed, the St. Louis Cards appear to be up against a stone wall.

Headline says: "Cincinnati Players not in Sympathy With Strike." Evidently the Reds do not believe in giving that which they never receive.

Now that the Mackaen have been forbidden to play golf the coming season they have been denied indulgence in the only game in which they were adepts.

Manager Joe Cantillon of the Minneapolis Millers comes to bat with a defy to the "frat," declaring that he wants no part of a pastimers' union working for him.

The Pacific Coast league clubs have decided to try out new talent in future, instead of signing so many major league cast-offs as they have done in the past.

Pitcher Walter Johnson has lost none of his speed, as evidenced by his recent time-beating performance in getting out of the water after breaking through Kansas river ice.

Having a "yen" to resume the life of a big leaguer, Marty McInnis, former Yank and Red Sox twirler, has offered his services to Manager Mathewson of the Cincinnati Reds.

President Fultz of the Baseball Players' fraternity says the American association players will not sign until given the word. In regards to last season's players Milwaukee fans hope the world will be lost.

Manager Bill Donovan of the New York Yankees appears to have uttered the right guess when he said the American league would witness a tight race this year. Boston, Detroit and Chicago will make good Bill's prediction.

Whether Honus Wagner was influenced in his decision not to strike is not known, but—shortly after the marriage of the Pirate star emphatic word came from Pittsburgh that Henry would take no part in the threatened walk-out.

Washington's acquisition of Sam Crane, the sensational young Baltimore shortstop, means that the veteran George McBride will have to step

some to hold his job.

Fred Mitchell the new boss of the Cubs, says he doesn't want a player on his team who hasn't sense enough to take care of himself. It is plain to see that the National league player limit is going to prove a handicap for "Mitch."

Both Boston shortstops Maranville of the Braves and Scott of the Red Sox, want more dollars than they received last season. The said the "Rabbit" drew down na fancy wad last year, but believed an increase is due him. With Scott's it's a case of fattening what he terms a rather lean salary.

John Gangel, the Kansas City pilot, will start a big league machine, 1916 model in this year's American association race. Among the former big leaguers John has gathered are Pitchers McConnell, McQuillen and Chalmers, infielders Viox, Wagner and Phelon, and outfielders Gaudy, Baker and Gilbert.

## TO DARKEN HAIR APPLY SAGE TEA

Look Young! Bring Back Its Natural Color, Gloss and Attractiveness

Common garden sage brewed in heavy tea with sulphur water, turn gray, streaked and falling hair beautifully dark and luxuriant. Just few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea with a gray recipe at home, makes a trouble some. An easy way is to use a 50-cent bottle of Wyeth's Sage and Shampoos. Combed at any drug store all ready for use. This is the only recipe, approved by the authorities, for other ingredients.

While the wispy, gray hair is not so bad, we all desire to see our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Shampoo, you can naturally, so even, you just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By using all gray hairs have disappeared and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

This preparation is a delightful toilet requisite, and it not only cures the cure, mitigation or prevention of disease.

## LITTLE LILLIAN ROMAINE FISHER CAN TALK AGAIN

This attractive little lady is the  
two year old daughter of Mr. and Mrs.  
O. M. Fisher, 238 North St., Harris-  
burg, Pa. Last winter she had an at-  
tack of measles, together with a very  
severe cold. Just at that time Drug-  
gist S. J. Wilhelm presented Mr.  
Fisher with a jar of the Southern  
"outside" treatment—Vick's VapoRub  
Salve, which was just then being in-  
troduced in Harrisburg, and requested  
that he give this preparation a thor-  
ough trial. Mr. Fisher writes—  
"I must say that our baby had  
such a cold on her chest and in her  
throat that she could hardly talk,  
and we could not get her to take  
anything internally. After we used  
Vick's VapoRub Salve on her breast  
and throat at night before going  
to bed she was entirely relieved."  
No family should be without this  
preparation. It is externally applied,  
and so can be used freely—it is ab-  
sorbed through and penetrates the  
skin, and in addition, is inhaled as a  
vapor. It has a hundred uses for the  
many minor ailments for which every  
mother is the doctor. Three sizes,  
25c, 50c or \$1.00.

## DuBois School Bond Issue is Defeated

The \$8500 bond issue asked for by  
the DuBois school board, for the pur-  
pose of building an addition to the  
high school, was defeated yesterday  
by a margin of 534 votes. The  
voting was quite light, there being a  
total of 739 ballots cast, but this to-  
tal compares favorably with that cast  
at other bond issue elections. In fact  
it is as high as at some primary  
elections. The result is very disap-  
pointing to the school officials, who  
felt quite confident that the bond is-  
sue would be ratified and that they  
would be given authority to go ahead  
and provide for the overcrowded con-  
dition of the schools at the present  
time. Directors who were seen last  
evening had little to say, stating that  
they were keenly disappointed, but  
that they would be forced to make  
the best of a bad situation.

There is a registered vote in the  
city of 1669. Out of this total 739  
voters went to the polls and voted  
yesterday. There was a majority vot-  
ed in favor of the bond issue, the re-  
sults being 390 for and 349 against.  
But it requires a three-fifths vote to  
carry a bond issue. This would re-  
quire a positive vote of 443.4. The  
total vote for the issue was 390 mak-  
ing a deficiency of 53.4 votes.

## QUIT MEAT WHEN KIDNEYS BOTHER

Take a glass of Salts if your Back  
hurts or Bladder troubles you

No man or woman who eats meat  
regularly can make a mistake by flush-  
ing the kidneys occasionally, says a  
well known authority. Meat forms  
uric acid which excites the kidneys,  
they become overworked from the  
strain, get sluggish and fail to filter  
the waste and poisons from the blood,  
then we get sick. Nearly rheu-  
matism, headaches, liver trouble,  
nervousness, dizziness, sleeplessness  
and urinary disorders come from slug-  
gish kidneys.

The moment you feel a dull ache in  
the kidneys or your back hurts or if  
the cloudy, offensive, full of sediment,  
irregular of passage or attended by a  
sensation of scalding, stop eating meat  
and get about four ounces of Jad Salts  
from any pharmacy; take a table-  
spoonful in a glass of water before  
breakfast and in a few days your kid-  
neys will act fine. This famous salts  
is made from the acid of grapes and  
lemon juice, combined with bicarbonate  
and has been used for generations to flush  
and stimulate the kidneys, also to neu-  
tralize the acids in urine so it no longer  
causes irritation, thus ending blad-  
der weakness.

Jad Salts is inexpensive and cannot  
injure; makes a delightful efferves-  
cent lithia-water drink which every-  
one should take now and then to keep  
the kidneys clean and active and the  
blood pure, thereby avoiding serious  
kidney complications.

**WAR RUMORS**

The community was plunged into turmoil yesterday by a rumor that the Kaiser had declared United States. Inquiries came into the Progresser than we could answer them and the odds that so many people left us under the impression they were disappointed and angry with us would not confirm the rumor. Our good remember that a newspaper cannot manufacture rather must depend on others to create are of interest to people generally. Of progress has no influence with Kaiser Bill so if with him you will have to get somebody else

**ON THE SCREEN**

SIR HERBERT TREE AS  
AN AMERICAN FARMER

English Actor-Knight Appears in Drama of Domestic Life in Triangle Feature, "The Old Folks at Home."

At the Opera House Tomorrow John Coburn and wife have become comfortably old and grey in their simple farm life. Reward comes to the old farmer in the form of a state senatorship. This, in the end means the breaking up of the old home.

The farmer's son, Steve, goes to the city, leaving behind his country sweetheart, Marjorie. Steve, however, falls into the hands of an adventuress, Lucia Medina, who plays with the affection of the country boy. The woman's companion, at first tolerant that Lucia receive the attentions—and money—of Steve, grows jealous.

In a mad rage, he strikes the woman, and Steve, who has quietly entered the apartment, shoots and kills the man in defense, as he believes, of Lucia. The boy manages to escape to his own rooms, where he comes face to face with his father and mother, who have come to visit him. They help him to escape, and he succeeds in reaching the old farm. There, however, he is arrested and brought back to the city for trial.

The trial is going seriously against the lad when the aged mother unexpectedly makes a passionate appeal to the jury. Touched by her tears, the jury bring in a verdict of "Not Guilty." So the old farmer and his wife take their son back to the old farm. There Steve finds his little country sweetheart awaiting him.

**DR. COBURN'S ADDRESS**

At the Baptist church last night Dr. Coburn spoke on "Repentance." He made it clear from the Bible that the word Jesus used had only one meaning and that in the mind of Jesus repentance meant to accept the thought and way of God instead of the way and thought of man and that these ways and thoughts were entirely and radically different. Only by accepting God's thought and doing God's will can any man have hope of heaven and the command is universal to all men in every age and place. Tonight Dr. Coburn will speak on "God's thought concerning God and the Devil vs. the thought of man." At 3 o'clock tomorrow the subject will be "The Gospel of Jesus and why are there four records?"

**STOMACH UPSET?**

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking pills, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles. If you have a bad taste in your mouth, tongue coated, appetite poor, laxative, constipation, no ambition or energy, troubled with undigested foods, you should take Olive Tablets, the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without gripping cramps or pain. Take one or two at bedtime for quick relief, so you can eat what you like. At 10c and 25c per box. All druggists.

### GARLIC

A friend of ours named Schultz asks us what we think of garlic. Truth is, Harry we don't think of garlic if we can help it.

Onions are bad enough, heaven knows. And garlic is demoralized onion.

Garlic originated with the pirates who sailed the Spanish Main. Knives, daggers, blunderbusses, garlis and other deadly weapons were common to them.

Garlic in the rough looks like a tulip bulb and smells like an Italian picnic. It is strung up in bunches in front of grocery stores. People who eat it ought to be too.

A little garlic goes a long way especially in a crowded street car.

### MARSHALL FIELD'S SON AND ARTIST GIBSON'S NIECE TO WED TODAY

### RUSSIA TO RECALL MUNITION AGENTS HERE AND SEND THEM TO THE TRENCHES

New York, Feb. 7.—Weary, it is said of paying high salaries and getting low efficiency from his staff, of 300 munition buyers with headquarters in New York, Czar Nicholas is expected to order most of them home within the next few days and put them in the trenches at the front. The Russian government was extremely displeased with the loss of millions of dollars in the Black Tom explosion and Kingsland explosions.

## BEGIN HOT WATER DRINKING IF YOU DON'T FEEL RIGHT

Says glass of hot water with phosphate before breakfast washes out poisons.

If you wake with a bad taste, bad breath and tongue is coated; if your head is dull or aching; if what you eat sours and forms gas and acid in stomach, or you are bilious, constipated, nervous, sallow and can't get feeling just right, begin inside bathing. Drink before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it. This will flush the poisons and toxins from the stomach, liver, kidneys and bowels and cleanse, sweeten and purify the entire alimentary tract. Do your inside bathing immediately upon arising in the morning to wash out of the system all the previous day's poisonous waste gases and sour bile before putting more food into the stomach.

To feel like young folks feel; like you felt before your blood, nerves and muscles became loaded with body impurities, get from your pharmacist a quarter pound of limestone phosphate which is inexpensive and almost tasteless, except for a sourish twinge which is not unpleasant.

Just as soap and hot water act on the skin, cleansing, sweetening and freshening, so hot water and limestone phosphate act on the stomach, liver, kidneys and bowels. Men and women who are usually constipated, bilious, headachy or have any stomach disorder should begin this inside bathing before breakfast. They are assured they will become rear cranks on the subject shortly.

### BETTER POSTAL FACILITIES WOULD BOOM U. S. TRADE IN SOUTH AMERICA

Buenos Aires, Jan. 18.—Better postal facilities between the United States and South America are declared by North American business men here to be one of the most urgent necessities today for the development of trade on the southern continent.

Mail order houses are pointed to as one class of concerns which might open a big field if the postal difficulty can be overcome. There is now no means for exchanging small amounts of money cheaply.

### CEMENT SHOW IN CHICAGO

The exhibition will continue through the coming week. A large section there will be a series of meetings and conferences representing the various branches of the industry.

## POSTUM

"There's a Reason"

The world's champion Red Sox were pleased to learn that "Rube" Marquard had signed with the Brooklyn Robins for the coming season.

Having disposed of their surplus talent and with few of their regulars signed, the St. Louis Cards appear to be up against a stone wall.

Headline says: "Cincinnati Players not in Sympathy With Strike." Evidently the Reds do not believe in giving that which they never receive.

Now that the Mackaen have been forbidden to play golf the coming season they have been denied indulgence in the only game in which they were adepts.

Manager Joe Cantillon of the Minneapolis Millers comes to bat with a defy to the "frat," declaring that he wants no part of a pastimers' union working for him.

The Pacific Coast league clubs have decided to try out new talent in future, instead of signing so many major league cast-offs as they have done in the past.

Pitcher Walter Johnson has lost none of his speed, as evidenced by his recent time-beating performance in getting out of the water after breaking through Kansas river ice.

Having a "yen" to resume the life of a big leaguer, Marty McInnis, former Yank and Red Sox twirler, has offered his services to Manager Mathewson of the Cincinnati Reds.

President Fultz of the Baseball Players' fraternity says the American association players will not sign until given the word. In regards to last season's players Milwaukee fans hope the world will be lost.

Manager Bill Donovan of the New York Yankees appears to have uttered the right guess when he said the American league would witness a tight race this year. Boston, Detroit and Chicago will make good Bill's prediction.

Whether Honus Wagner was influenced in his decision not to strike is not known, but—shortly after the marriage of the Pirate star emphatic word came from Pittsburgh that Henry would take no part in the threatened walk-out.

Washington's acquisition of Sam Crane, the sensational young Baltimore shortstop, means that the veteran George McBride will have to step

some to hold his job.

Fred Mitchell the new boss of the Cubs, says he doesn't want a player on his team who hasn't sense enough to take care of himself. It is plain to see that the National league player limit is going to prove a handicap for "Mitch."

Both Boston shortstops Maranville of the Braves and Scott of the Red Sox, want more dollars than they received last season. The said the "Rabbit" drew down na fancy wad last year, but believed an increase is due him. With Scott's it's a case of fattening what he terms a rather lean salary.

John Ganzel, the Kansas City pilot, will start a big league machine, 1916 model in this year's American association race. Among the former big leaguers John has gathered are Pitchers McConnell, McQuillen and Chalmers Knickerbocker, Vioy, Wagner and Philon, and Outfielders Gaudy, Baker and Gilbert.

## LITTLE LILLIAN ROMAINE FISHER CAN TALK AGAIN

This attractive little lady is the  
two year old daughter of Mr. and Mrs.  
O. M. Fisher, 238 North St., Harris-  
burg, Pa. Last winter she had an at-  
tack of measles, together with a very  
severe cold. Just at that time Drug-  
gist S. J. Wilhelm presented Mr.  
Fisher with a jar of the Southern  
"outside" treatment—Vick's VapoRub  
Salve, which was just then being in-  
troduced in Harrisburg, and requested  
that he give this preparation a thor-  
ough trial. Mr. Fisher writes—  
"I must say that our baby had  
such a cold on her chest and in her  
throat that she could hardly talk,  
and we could not get her to take  
anything internally. After we used  
Vick's VapoRub Salve on her breast  
and throat at night before going  
to bed she was entirely relieved."  
No family should be without this  
preparation. It is externally applied,  
and so can be used freely—it is ab-  
sorbed through and penetrates the  
skin, and in addition, is inhaled as a  
vapor. It has a hundred uses for the  
many minor ailments for which every  
mother is the doctor. Three sizes,  
25c, 50c or \$1.00.

## DuBois School Bond Issue is Defeated

The \$8500 bond issue asked for by  
the DuBois school board, for the pur-  
pose of building an addition to the  
high school, was defeated yesterday  
by a margin of 534 votes. The  
voting was quite light, there being a  
total of 739 ballots cast, but this to-  
tal compares favorably with that cast  
at other bond issue elections. In fact  
it is as high as at some primary  
elections. The result is very disap-  
pointing to the school officials, who  
felt quite confident that the bond is-  
sue would be ratified and that they  
would be given authority to go ahead  
and provide for the overcrowded con-  
dition of the schools at the present  
time. Directors who were seen last  
evening had little to say, stating that  
they were keenly disappointed, but  
that they would be forced to make  
the best of a bad situation.

There is a registered vote in the  
city of 1669. Out of this total 739  
voters went to the polls and voted  
yesterday. There was a majority vot-  
ed in favor of the bond issue, the re-  
sults being 390 for and 349 against.  
But it requires a three-fifths vote to  
carry a bond issue. This would re-  
quire a positive vote of 443.4. The  
total vote for the issue was 390 mak-  
ing a deficiency of 53.4 votes.

## QUIT MEAT WHEN KIDNEYS BOTHER

Take a glass of Salts if your Back  
hurts or Bladder troubles you

No man or woman who eats meat  
regularly can make a mistake by flush-  
ing the kidneys occasionally, says a  
well known authority. Meat forms  
uric acid which excites the kidneys,  
they become overworked from the  
strain, get sluggish and fail to filter  
the waste and poisons from the blood,  
then we get sick. Nearly rheu-  
matism, headaches, liver trouble,  
nervousness, dizziness, sleeplessness  
and urinary disorders come from slug-  
gish kidneys.

The moment you feel a dull ache in  
the kidneys or your back hurts or if  
the cloudy, offensive, full of sediment,  
irregular of passage or attended by a  
sensation of scalding, stop eating meat  
and get about four ounces of Jad Salts  
from any pharmacy; take a table-  
spoonful in a glass of water before  
breakfast and in a few days your kid-  
neys will act fine. This famous salts  
is made from the acid of grapes and  
lemon juice, combined with bicarbonate  
and stimulates the kidneys, also to neu-  
tralize the acids in urine so it no longer  
causes irritation, thus ending blad-  
der weakness.

Jad Salts is inexpensive and cannot  
injure; makes a delightful efferves-  
cent lithia-water drink which every-  
one should take now and then to keep  
the kidneys clean and active and the  
blood pure, thereby avoiding serious  
kidney complications.
